FAQs – Minor Specialization Mini Project

1. What is the Minor Specialization Mini Project?
Minor specialization is optional. However, if a student chooses to pursue a minor specialization, completion of the Minor Specialization Mini Project is mandatory for the award of the Minor Specialization based on the minor courses (program electives). The Mini Project is a credit-bearing project intended to provide hands-on practical exposure to concepts learned in the minor courses. Dropping mini-project, is dropping Minor Specialization.

2. Who is eligible to register for the Mini Project?
Only students who have opted for a minor specialization have to mandatory undertake the Mini Project.

3. What is the allowed group size?
Each group must consist of a minimum of 3 students and a maximum of 4 students.

4. Can students from different branches form a group?
Yes. Students from different branches (for example, CSE Core and CCE) may form a group provided all members are enrolled in the same minor specialization (for example, Big Data Analytics).

5. Can students from different minor specializations form a group together?
No. All members of a group must belong to the same minor specialization basket.

6. How should the project group be formed?
Students must form their groups on their own.

7. Who should submit the group details?
Only one member per group should submit the group details through the official Form circulated by the department.

8. What information must be provided in the group formation form?
Names and registration numbers of all group members, minor specialization name, Program Elective (PE) name and subject code, main basket name, and preferred faculty mentor (if applicable).

9. Can a previously completed project be extended as the Mini Project?
Yes. Students who have previously completed a project related to their minor specialization under a faculty member may propose to extend it as the Mini Project, allocation of the same faculty as mentor subject to feasibility and availability.

10. Can students choose their own faculty mentor?
Students may indicate a preferred faculty mentor only as per point number 9, however, final mentor allocation rests with the department and is subject to feasibility.

11. Can group details be changed after submission?
No. Once submitted, group details cannot be changed under any circumstances.

12. What happens if incorrect or insufficient details are submitted?
Forms with incomplete information, incorrect PE details, invalid group size, or mixed-minor groups will be discarded without further communication.

13. What is the deadline for group formation?
12th February is the final and non-extendable deadline for submission of group details.

14. What happens if a student drops the Minor Specialization in the 6th semester?
If a student drops the Mini Project in the 6th semester, the student can continue with the minor program elective. The required Program Electives (PEs) in the 7th semester will be allotted by the Academic Section after collecting student preferences. Maximum consideration will be given to preferences; however, allocation is subject to feasibility. The decision of the Academic Section is final.

15. What happens if all students in a group drop the minor specialization except one?
If all group members except one student drop the minor specialization, the remaining student may merge with another group in the early stage provided the other group belongs to the same minor specialization basket, or may continue the Mini Project individually and will be evaluated independently.

16. Can a student continue the Mini Project while doing an internship?
Students pursuing an internship (in 7th sem or one year internship in 7th sem and 8th sem) may continue the Minor Specialization Mini Project only if the minor electives are offered through Coursera and provided the student is able to manage both the internship and the Mini Project. For all other minor specializations, the minor specialization must be dropped if the student opts for an internship.

17. Is publication of the Mini Project work mandatory?
No. Publication of the Mini Project work is desirable but not mandatory.

18. What happens after group submission?
After verification of group details, faculty mentors will be assigned .

19. Will late submissions be accepted?
No. Late submissions will not be entertained under any circumstances.

20. Whom should students contact for clarifications?
Students should contact the Minor Specialization Coordinator through official communication channels only.

You can contact the following faculty from School of Computer Engineering for the clarifications:

1. Dr. Radhika Kamath
2. Dr. Sandhya Laxmi Navada
3. Dr. Sandhya Dubey
4. Dr. Savitha G
5. Dr. Avik Bose
